- 16 CENTURION ON MERCEDES-BENZ ATEGO
- 26 CENTURION ON MERCEDES-BENZ ACTROS

1-2-3, **DAILY**, **ATEGO** AND **ACTROS**

Whether equipped with or without car garage, they are also nice to look at from behind.

Immediately catching one's eye is the elegantly styled rear spoiler with reversing lights and integrated reverse camera or the Concorde lift-up system as garage door. The awning, perfectly embedded in the side wall, or the uniformly distributed bus flaps perfectly round out this view.

CENTURION ON **IVECO DAILY**

The smallest representatives of the Centurion series – with a gross vehicle weight of less than 7.5 tons – make a big impression.

Equipped with luxurious innovations that have already proven themselves in their big brothers, the Daily-based Centurions combine a maximum of luxury and comfort.

LIGHTS CREATE SPACES

Generously dimensioned, equipped to a high standard, unbelievably modern. The generous spatial impression in the living room is significantly strengthened by the unobtrusively positioned ambient lighting. With the large windows that extend into the kitchen area, the room gains additional size. Just as it should be for a Concorde land yacht.

COOKING FOR CREATIVES

Stylish and tidy and creating a space miracle with just a few hand movements. With the integrated electromechanical coffee machine lift, the retractable socket strip directly in the worktop or the extendable worktop with integrated shelf unit, everything has its place in the creative kitchen.

The elegantly recessed double sink with gastro tap and the hybrid ceramic hob free your creativity from limits.

LUXURY IN THE SMALLEST OF SPACES

The bathroom landscape resembles that of a five-star hotel. High-quality fittings, a towel holder with dryer and the large rainforest shower create an incomparably pleasant atmosphere. Everything for a refreshing morning spa programme, for your home away from home.

SLEEP IN **STYLE**

Regardless of where you stand, the bedroom is always at a perfect temperature thanks to the additional air conditioner in the sleeping area. The stylish lighting of the canopy and the circumferential overhead cabinets are perfectly integrated in the sleep arena, giving it a large, bright appearance.

CENTURION ON **MERCEDES-BENZ ATEGO**

The medium-sized land yachts of the Centurion series do it all in a maximum of 15 tons. The owner is free to move with a car in the garage in this weight class as well. Thanks to the elegant equipment and a range of innovations for even more comfort, your trip will be one of luxury.

LIVING AREA

COMFORT SEATING GROUP

The luxurious interior makes travel an unforgettable experience. Surrounded by beautifully crafted superior quality equipment you will enjoy an almost unbelievable level of comfort and luxury.

LUXURIOUS AND CLEVER

Exquisite materials and ingenious features reduce the kitchen design to its essence and ensure even more joy when cooking. The functional arrangement of the kitchen lacks for nothing.

WELLNESS IN A CLASS OF ITS OWN

Typical for Concorde land yachts of the Centurion series are the spacious rainforest showers, the large wardrobes, the towel holder with drying function, the well-shaped washbasin contours and light. Plenty of light. You will feel at ease in these surroundings and enjoy every day on board.

SWEET DREAMS

Elegant and luxurious – the bed chamber shines not only with its design, highlighted by roof canopy with indirect climate control. The ambiance created by light and the wood grain also follow the circumferential stainless steel pilasters and open space for dreams.

THE **MOBILE** DREAM CASTLE

The new Centurion presents the years of experience and development of the Concorde premium flagship with a perfectly shaped, majestic appearance. Two designs, as an integrated and semi-integrated land yacht, unite hardly surpassable luxury and comfort at the highest level. The dream of a mobile castle has come true.

LUXURY **AND** COMFORT - THE **MOBILE LIVING EXPERIENCE**

The comfort of the living area with Havana Lounge and relax armchair is unbeatable. Exclusive leather upholstery, practical table construction and multimedia equipment leave nothing to be desired in terms of cosiness and comfort. The tasteful furniture design conveys a cosy atmosphere.

PRACTICAL **COMFORT** FOR **CREATIVE COOKS**

The Concorde kitchen is a dream for every cook. Almost like at home, the optimum space and room for preparing food and storing utensils. So creating culinary masterpieces or preparing everyday meals is really fun.

RAIN FOREST SHOWER FOR EXOTIC IN THE BATHROOM

The bathroom area is almost a wellness oasis. The absolute highlight is the rainforest shower, which gives a touch of exoticism. In addition, the warm design and the practice-oriented equipment provide a special feel-good factor. Mirrored surfaces and spot lighting round off the successful ambience.

A SLEEPING CHAMBER FOR MORE THAN 1,000 AND ONE NIGHT

Sleeping like the famous princess on the pea is not just a fairy tale here. Here sleeping becomes an absolute dream come true. The sleeping chamber, which really deserves its name, offers with comfortable queens bed, excellent mattress quality and almost infinite lying surface a dreamlike paradise for nightly relaxation.

EXQUISITE **SURFACES** AND MATERIALS

THE ROTONDO DESIGN LINE

An amazing feeling of space. The "Atlas Cedar" Rotondo furniture line with sunken stainless steel pilaster strips captivates with its emphatically emotional design language. Surfaces made of high-quality mineral composite with the "Carrara Bianco" colour scheme in the kitchen and the "Onyx Bianco" colour scheme in the bathroom impress with their silky-matt appearance. The abrasion-resistant "Amtico" floor in yacht-style with silver joints makes for excellent walking comfort and accentuates the stainless steel pilaster strips of the furniture.
